The Price Is the Same.

P. & G. Naphtha Soap sells for no more than ordinary naphtha soap.

P. & G. Naphtha Soap is the best naphtha soap; and, because it is best, you should use it.

But if, in a year or two or three, some other manufacturer comes along and makes a better soap, you should use his.

It does not seem possible to produce a better naphtha soap than "P. & G."

The materials of which it is made are very much better than those used in ordinary naphtha soap.

"P. & G." contains no rosin. Most naphtha soaps do. Rosin is cheap. That is why it is used in preference to materials that cost more and do better work.

"P. & G." contains cocoanut oil. No other naphtha soap does. Cocoanut oil is the highest grade material used in making laundry soap.

But—and this is important—the price of P. & G. Naphtha Soap is the same as that of ordinary naphtha soap. The materials are very much better. But the price is the same—5 cents a cake.

The July Clearance Sale Goods Are Finding Appreciative Purchasers

Every buyer in this store was given strict instructions to cut prices and clean stock, because we take inventory at the end of this month, and we must start with new, fresh merchandise. They did both with a vengeance, judging by the tremendous volume of sales on Monday and Tuesday. This appreciative spirit and shrewd judgment shown by the shopping public are clear proof of two things, viz: that the merchandise offered is seasonable and desirable in every way, and that the prices have been brought down to a point where buying is made almost irresistible. Get your share of tomorrow's merchandise "plums."
